

Add a New Account and Load a Screen on Tee-Screen

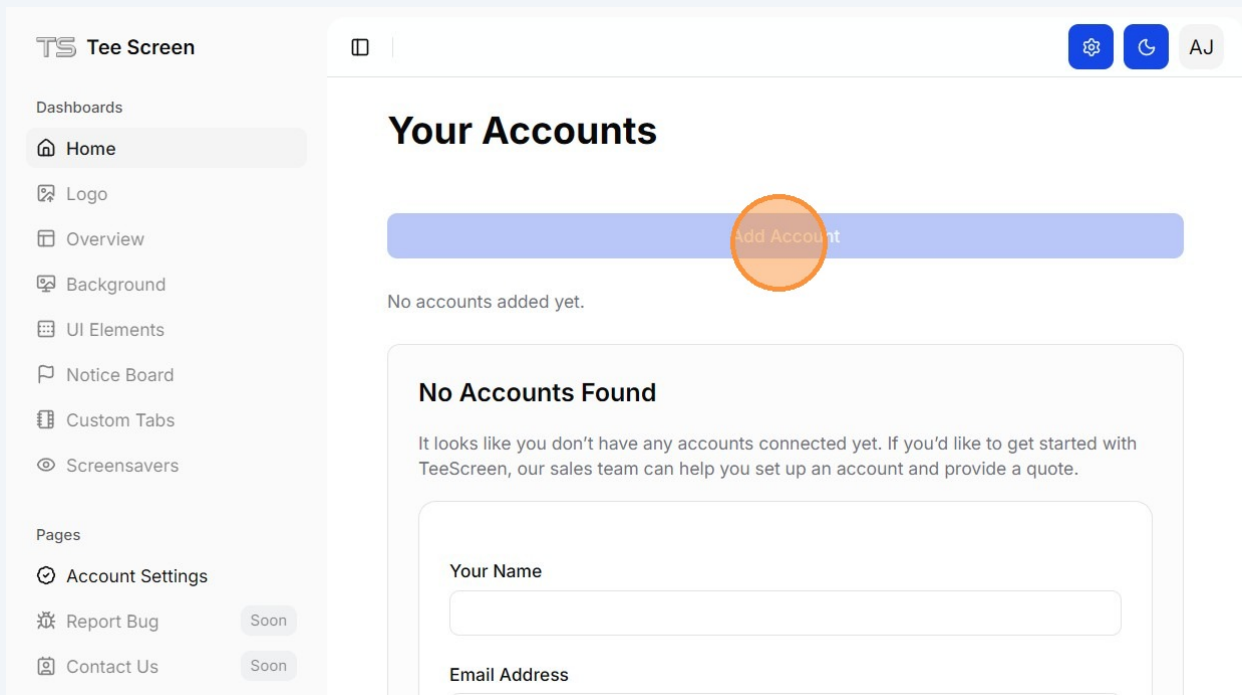

Learn how to add a new account and load a screen on Tee-Screen. This guide walks you through the simple steps to set up a new account and begin loading your screens.

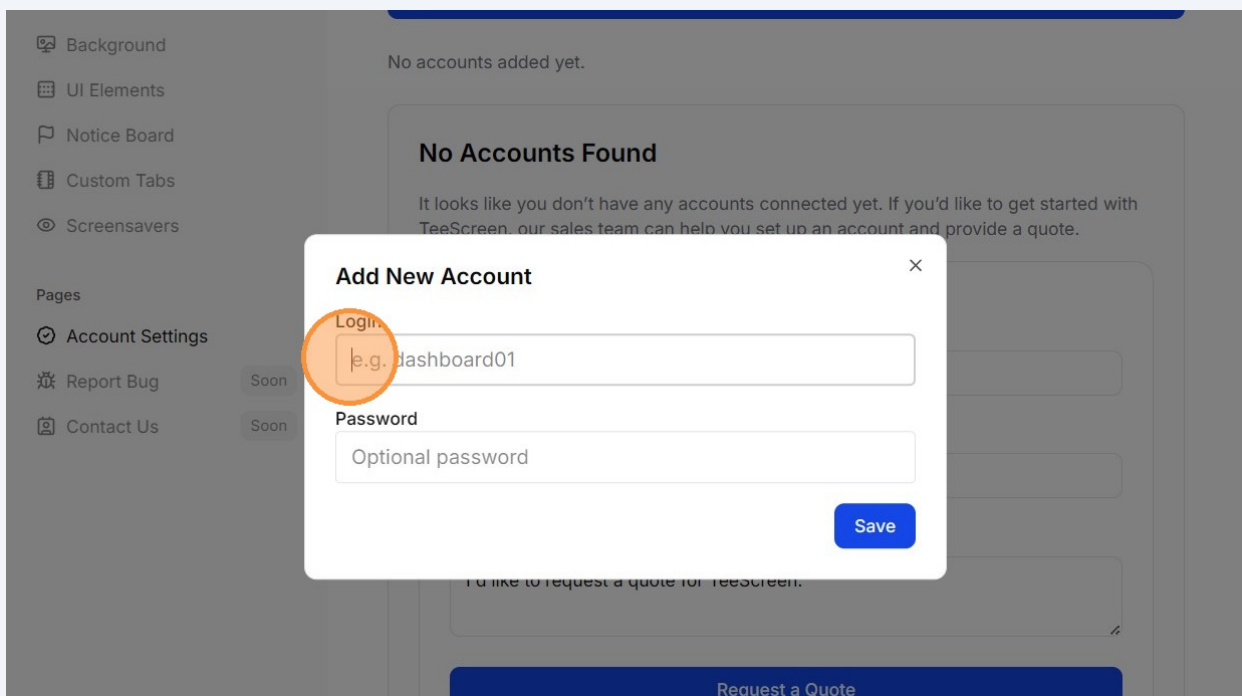

1 When you first login you will be taken to the dashboard homepage.

The screenshot shows the TeeScreen dashboard homepage. On the left is a sidebar with navigation links: UI Elements, Notice Board, Custom Tabs, Screensavers, Pages, Account Settings, Report Bug (with a 'Soon' button), and Contact Us (with a 'Soon' button). The main content area has a heading 'No Accounts Found' and a message: 'It looks like you don't have any accounts connected yet. If you'd like to get started with TeeScreen, our sales team can help you set up an account and provide a quote.' Below this is a form with three input fields: 'Your Name', 'Email Address', and 'Your Message'. The 'Your Message' field contains the text 'I'd like to request a quote for TeeScreen.' At the bottom of the form is a blue button labeled 'Request a Quote'.

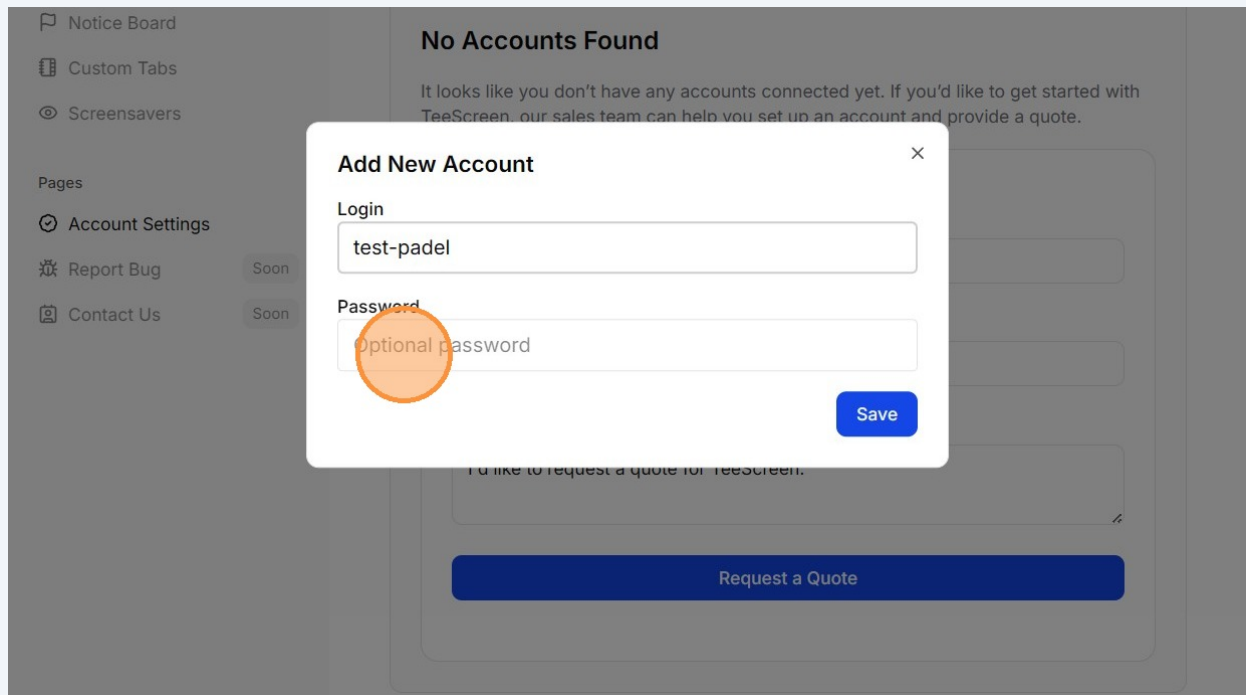

2 If you already have an account and screen login details, then click "Add Account"

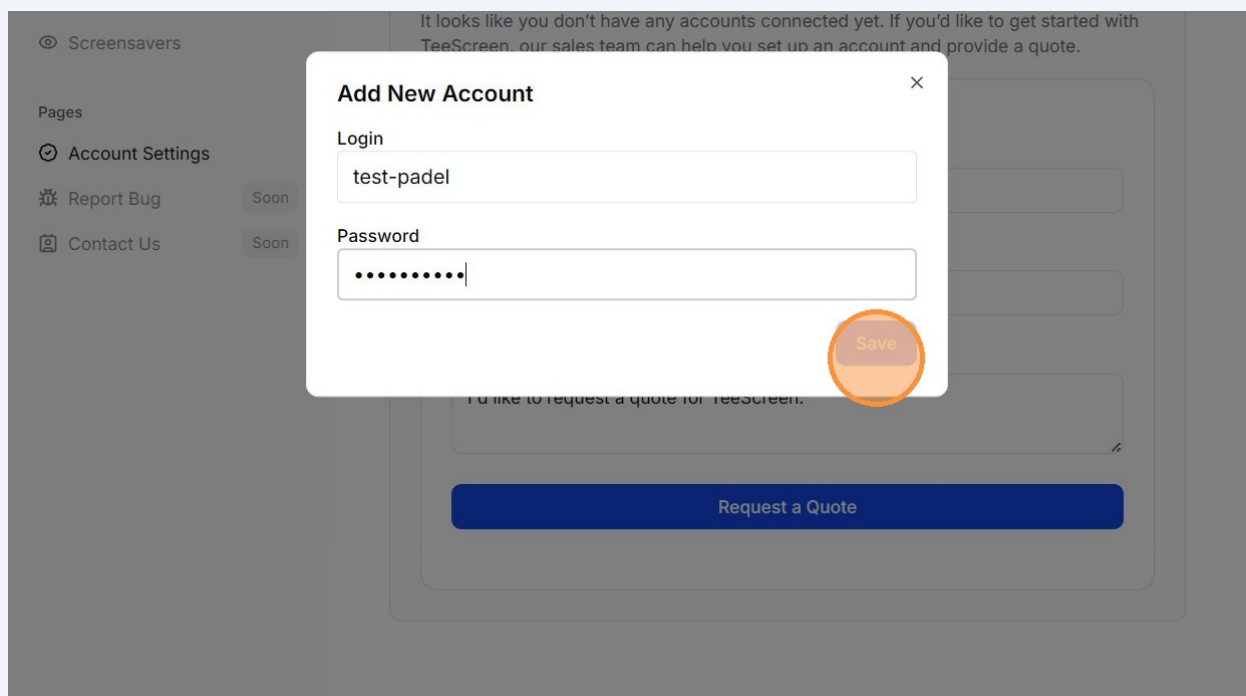

3 Click Login field to add your screen username

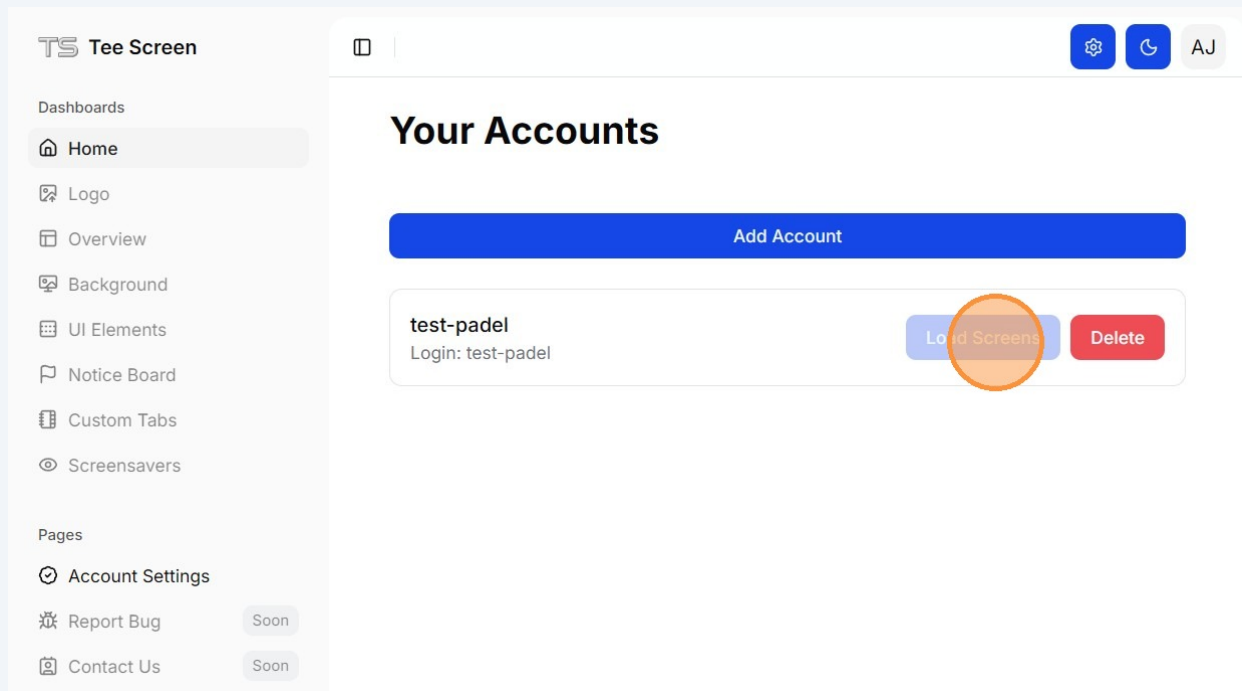

4 Click the password field to add your screen login

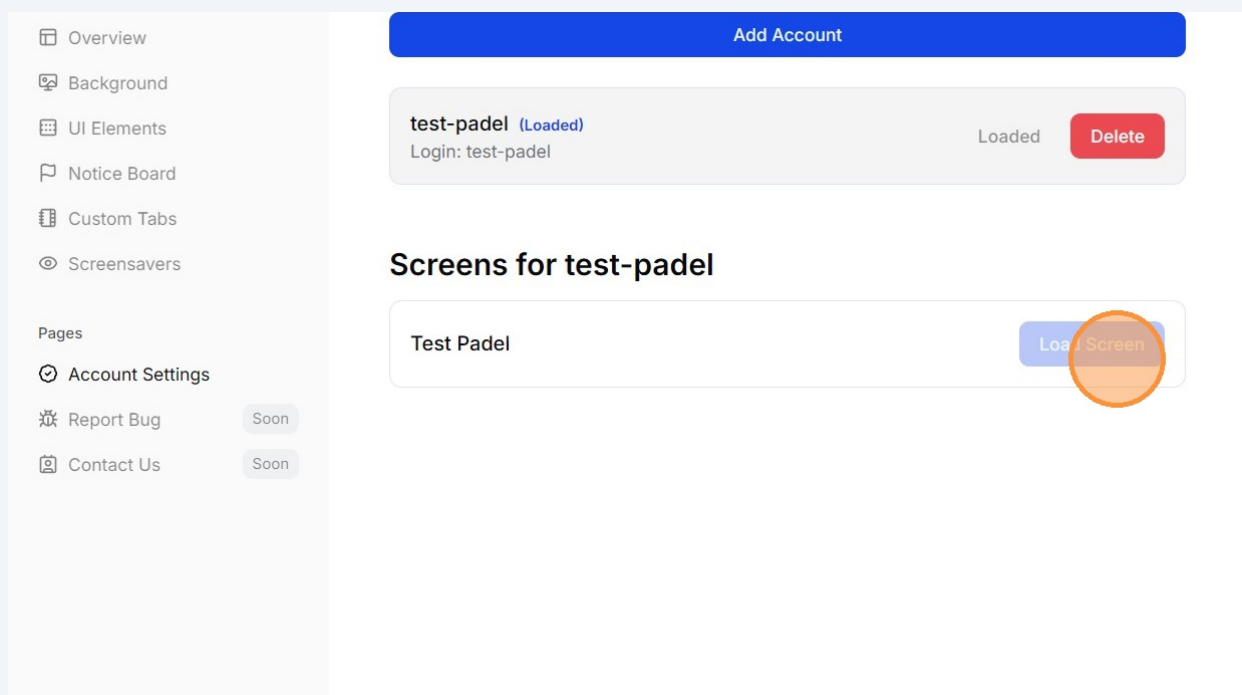

5 Click "Save"

6 Click "Load Screens" to load all the screens this account has control over

7 Click "Load Screen" to begin editing a specific screen

8 The dashboard on the left now has all its options unlocked, you can begin editing
