

How to Add your Screen Account and Load a Screen

Learn how to easily set up a new screen within your dashboard by navigating the account settings. This guide walks you through the entire creation and loading process to ensure your screen is ready for editing.

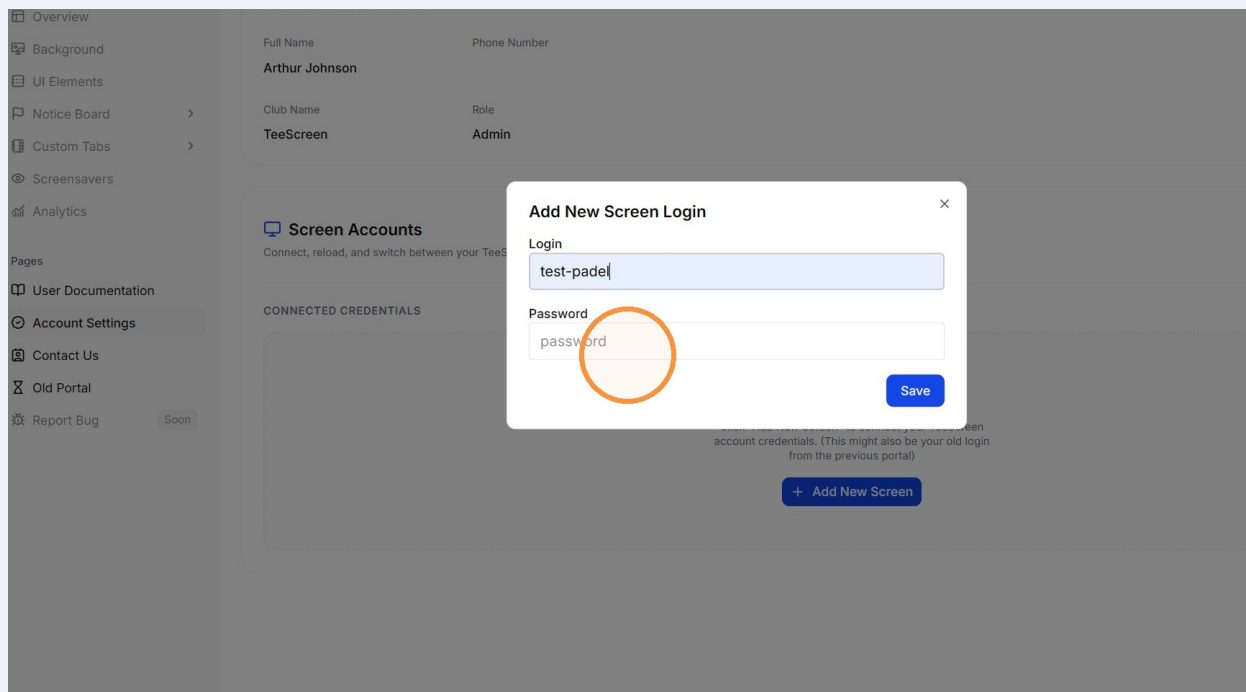

1 Click "Go to Account Settings"

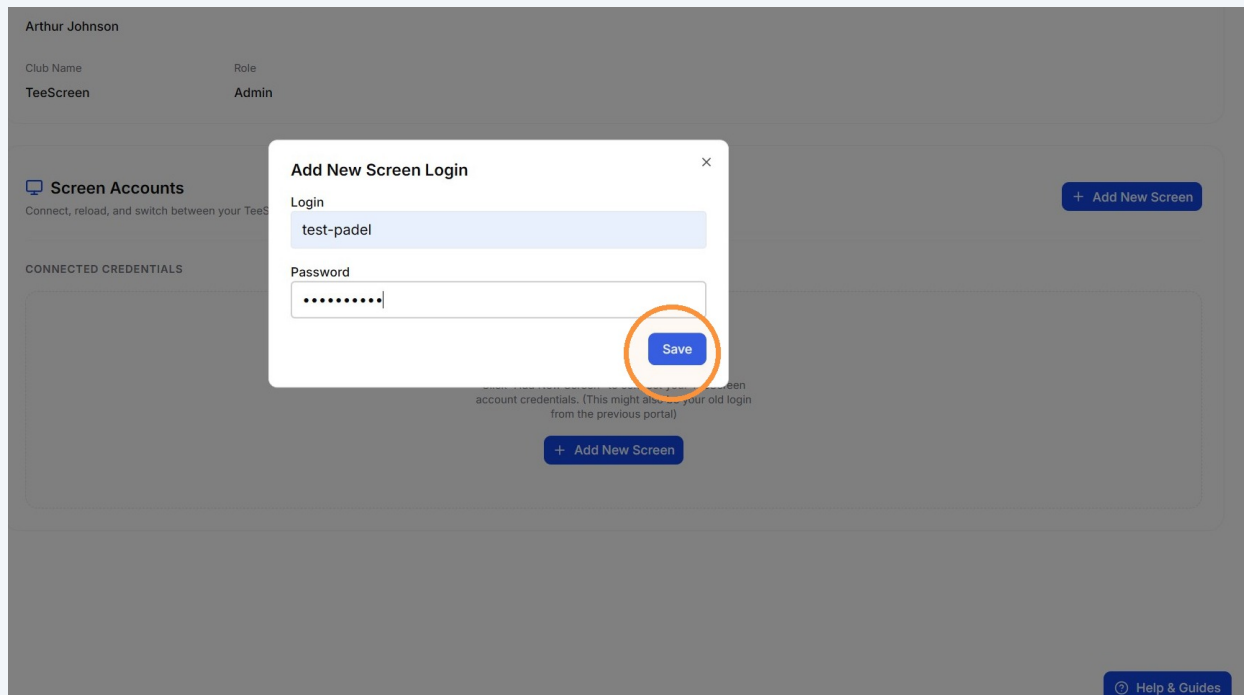

2 Click "Add New Screen"

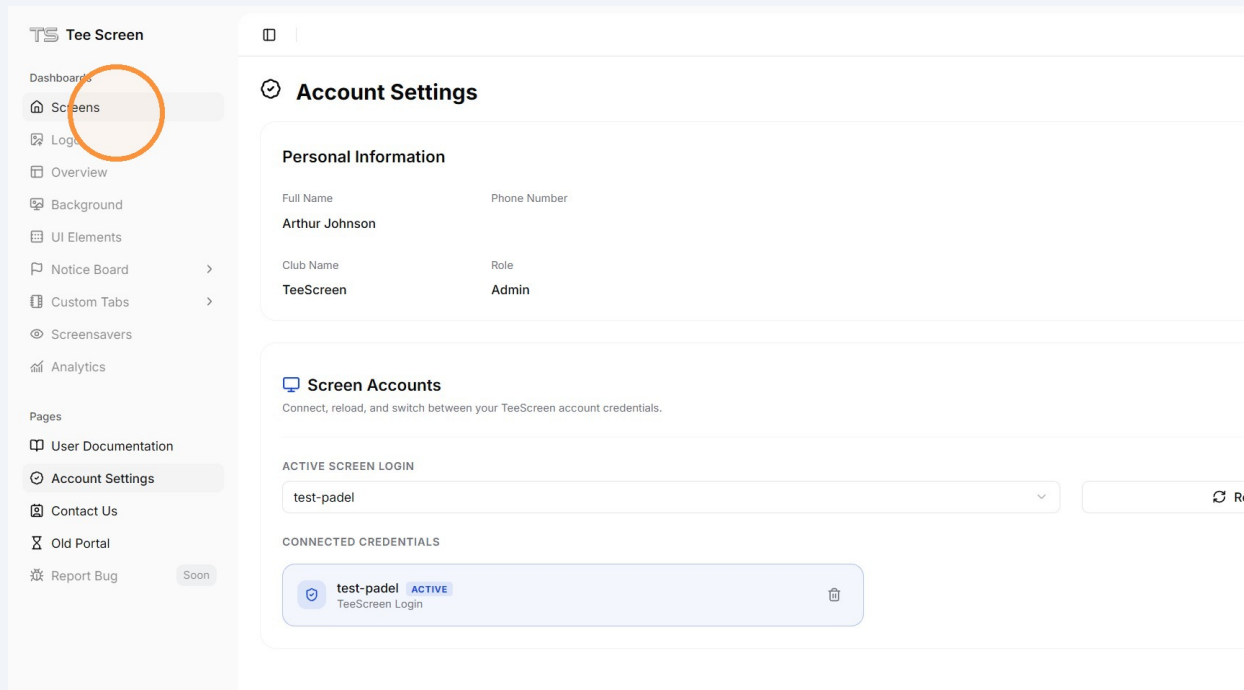

3 Type in your login and password for you screen accounts. These will have been provided by Tee Screen. If you have used the older version of the portal, then add your old login here

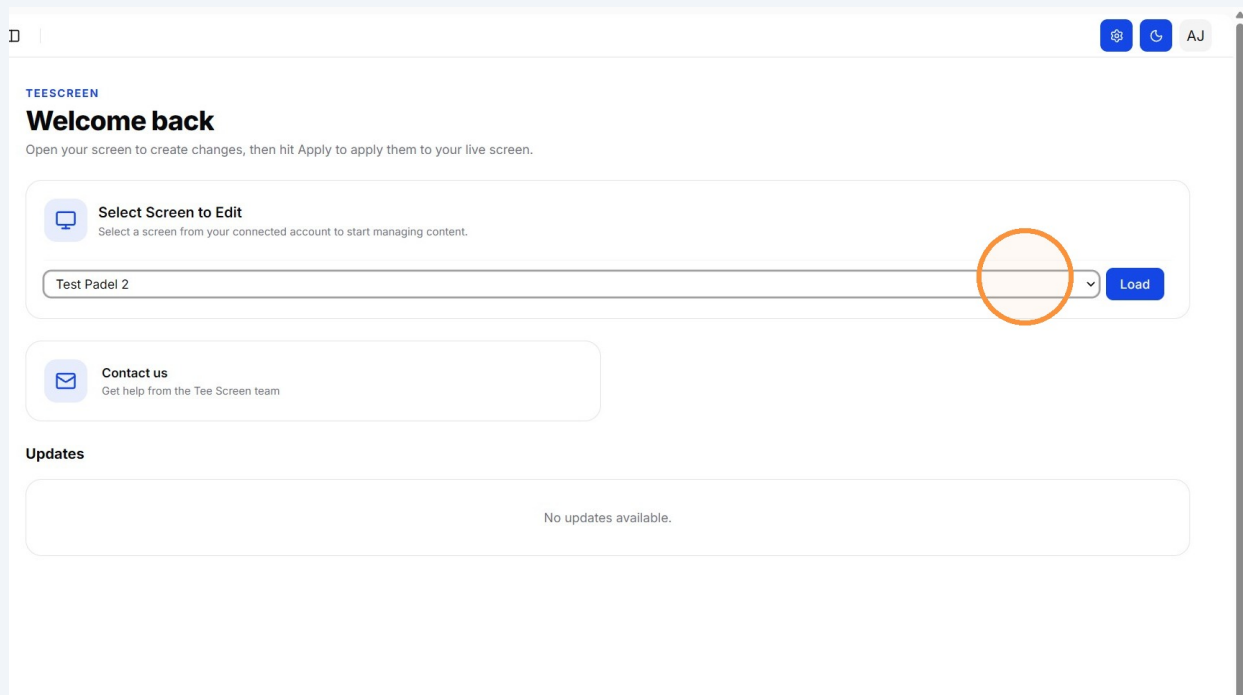

4 Click "Save"

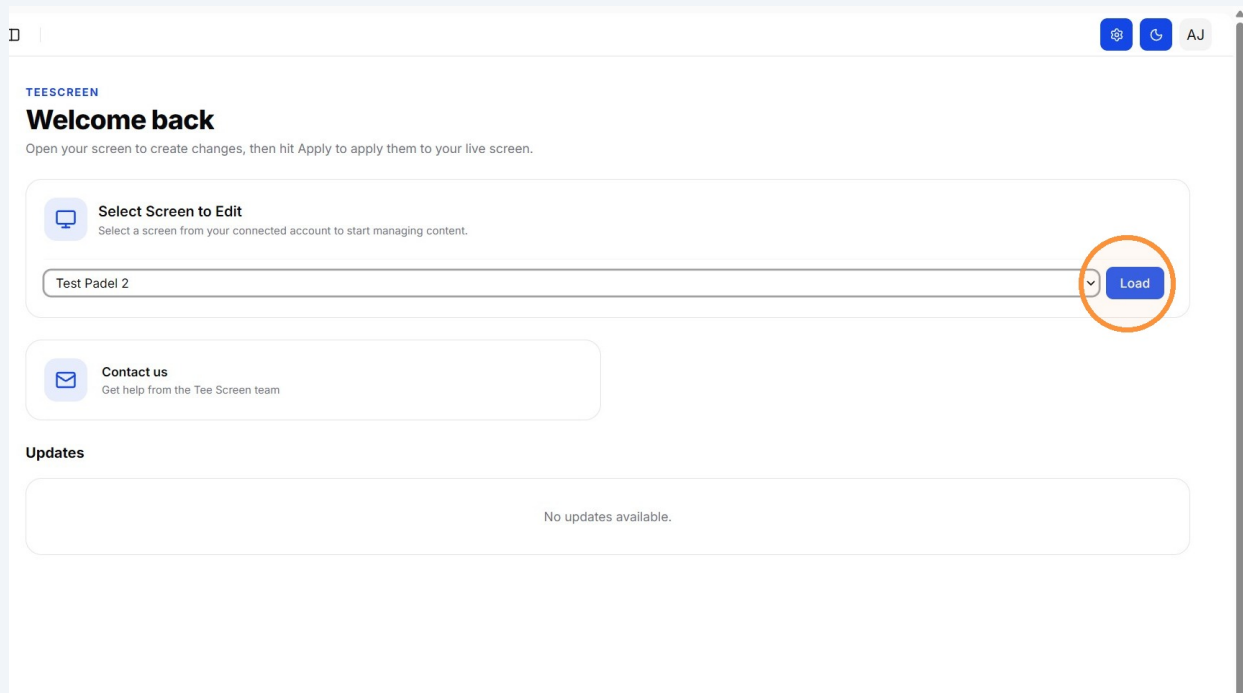

5 Click "Screens"

6 Click this dropdown to view all available screens for editing

7 Click "Load" to load the selected screen and begin editing

8

Once the Screen has loaded, the options on the left sidebar will become available as well as the preview of your changes on the right
